"Boost For Better Tomorrow"

Respect, Responsibility & Reaching for Excellence

About Us

Our institute is more than a school. A wonderland where both student and teacher are co-learners, we have evolved a system of learning that goes beyond text books, classrooms and chalks. Our aim is to develop the child's entire personality and to give exposure to all kinds of learning experiences.

Our Mission

- To provide our students enriching education experiences, to make them the future forerunners of the Indian citizens.
- To be individualistic in our approach, i.e. cater to the individual needs of each child.
- To respect every individual, despite any castes, creed and colour.
- To inculcate values in the students, such that make them responsible citizen of the country.

Aims & Objectives

- To provide all students pre-primary, primary and secondary alike, broad school learning experiences.
- To provide a stimulating learning environment across the whole curriculum, which ensures students of all ability levels are well equipped to meet the challenges of education, work and life.
- To educate through latest technological sources, blended with traditional ways of teaching.

Infrastructure

The school has a four-storey building with three spacious multipurpose activity halls and its own play area. Classrooms are well ventilated and equipped with state of art teaching aids. Standard of hygiene is excellent.

Faculty

The staff is well qualified and experienced, periodically well instructed in educational programs so that new methods of teaching are imparted.

Enriching Learning Environment

Catering to all areas of child development, a safe, stimulating and friendly environment is provided. Children's safety is paramount and education is through well planned play-based curriculum.

Cultural Activities

We conduct cultural activities to enhance children's socio-cultural skills. There are activities through which we establish and develop in children positive feelings about themselves. A perfect opportunity to learn cultural diversity & national integrity.

Other Salient Features

1) E-learning:

With the ever changing and evolving modern day scenario, it is the need of the hour to equip tomorrow's professionals with the ability to adapt, to change and to conquer the challenges posed. Thus the school has introduced some innovative value added programs of E- learning multimedia system for the students to sharpen their analytical, visual, communication and presentation skills. This program will constantly upgrade and update the students to give them, the much needed edge for accomplishing their goals.

2) Counseling Facility:

Students' psychological aspects are attended too. Trained inhouse counselors are available whenever needed.

3) Parents' Sessions:

We often motivate parents to make the best use of the child's formative years & equip them to handle the ever changing new era. For this we organise open day meetings, informative sessions & time to time workshops for the parents.

4) Library:

Our Library which is stocked with books on various subjects is made available to enhance the students knowledge and help the children to learn library skills. Thus they accept the library as a part of their world, long before they learn its 'purpose ana appreciate its value.

5) Bus Facility:

School Bus with a lady attendant to look after the children is available on selected routes.

Playgroup

‘Sparkles’ – The Playgroup has begun.

This move was made with the view of providing sound base for the students of our school. These very small children are at an age where learning takes place in leaps and bounds. Keeping in mind their tender age, their time with us is structured to fit their developmental stage and needs. When exposed to the right kind of activity, they learn the concepts very fast. Concepts thus learnt are steadfast and forever.

The activities for this class are specially designed to develop their motor skills. These activities also make them cognitively sound and smart. Learning is through play way and enjoyment.

The playgroup of our school has all the benefits of the rest of the school, like E-learning, play ground, access to library etc.

Children who go through the Play Group of our school will have a head start and be well acclimatized to the school.

A showcase of Students' Activities

Various students' activities such as Shloka activity, Sports Day, Talent Show, Picnic, Yummy Cooking Day, Pet Day, Annual concert, Rainwalk, Kite flying activity, Vegetable market day, Fun - fair etc.. are organised to provide outlet to the students' energy level & to tap their hidden talents.
